In my opinion, probably the best build large and all brilliant skills, some skills need them to use to use it, write in a paragraph of the name of the name, which the explorer diligence 2 Lightning Bolt 8 (Coral Thunder) current 2 * Concha Amor 5* Tornado 5 (Wind Coral) Voyager Conch Ray 10 (Coral Strike) Diligence 2 ** ALLA ENTANGLEM 10 * (Coral Thunder) * means that you can give more LVL, but only when you do the rest. For more information, your skills are intended for a ship, for example, [center] [/center] hunter> Sharshotol's information has a male breach but attacks from a distance, a great attack and therefore, . Monsters in priority, we reach the form of this use on the 40th LVL of the VEL, and after this LVLU gun. The tricks of the attack implies attacking the mafia and deviates from it and a repetitive attack. Playing a lot, but when I am exposed to aggressive monsters, we should not be careful, because we have a small number of deffa. Build a normal attack of complete action and a great attack, in the 40th CRITIC LVLU Frozen 5 * Firenun Master 10 Crica 10 Enfeble 10 Windwalk 10 * It means that the ability can only be used to see the gap ** means that you can develop this ability or not, depending on you, which will level up expards very much rā You can play alone and party. What time plays a message in which the information about the place of corali, for example, climate: in the local sea region in (1268, 1156), there is an eligric storm. Each of the skills takes a certain amount of Slaw energy. Coral we want to do we have to have one in accordance with same, during the time to see the growing purple belt next to the coral. Yes Yes All the skills already greet them according to the order of the Mastery 10 Blood Bull 10 Illusion Slash 10 - Only when you go to 100con/The rest of the primal AGI Rage/Mighty Strike 10 Leveling Expi very well. It seems to be "with An HP without medication almost the time in its entirety. Seal Master Herbalist> Seal Master Info Seal Master attacks all the time, skills, but unlike the explorer, it does not need corali to use skills. The negative the only one is the lack of two swords with The hand in Lvl6 30 and 35 and then we have to go with the sword in LVL 25 or with two swords. The shape of this dagger, tests and corali builds a great Spr attack. [quotation] The publication has been praised 0 times I recommend Harden, because I need people for defense than an attack. Try to look for mobs to kill 2-8 people so that he does not take care of it, be careful with the aggressive minor Mob 5, it would be possible to take control of Voyager [Center] [Center] Explorer> Voyager Info Voyager is pa I pray to a magician, he has a male defa and a great attack. The amount of with and STR depends on us. Sea Voyager [Center] [Center] Explorer> Voyager Info Voyager resembles a magician, has a male defa and a great attack. Look for mobs with a small attack so as not to sit every 10 seconds on the ground. Battle Clā © Ry Herbalist> information of the client is what the ordinary Cler Chiaâ, s to do, that is, we attack the complete constructions, thanks to which we can use skills and treat and polish. Each part needs a good clerk to deal with strong monsters. I propose to go to monsters with a small amount of HP Swordsman> Crusader Info Crusader has a male breach, but it is very rough and avoids a lot, so Mob will not deal with a large number of blows. Skills Herbalist Heal 3 Spiritual Bolt 10 Spiritual Fire 10 Vigor 8 Clā © Rigo Grace 2 Tornado Swirl 3 Energy Shield 10 Angelic Shield 10 Leveling levels we released fans and hit. I remember doing as soon as possible, the ability hardens for the maximum of finding a good party more rose. Leveling Exppi, of course, at the party, and throwing fans of the underpants. So it is like using chicks (rights) builds a complete spright, thanks to which we can use skills often and we will have large DMG. Thanks to the cure, we can heal all the time and we will not have to spend money on food, which will do us. However, we must consider aggressive monsters, because when we surround ourselves, our destiny is to discover these two construction words, we only have 2 good compilations: Str/AGI Good Build use 80% of the players who have more DMG of AGI full full AGI , But we have a small speed attack and avoid less aga, we do not give more than 60, of course, the rest in pp (100) with/p eyes 100 pp + the rest of the concentration 2 Mastery of THE SWORD 3 ILLUSION SLASH 4* BERSERK 5 DUAL CRUSADER SWORY MASTERY 5* DENNESS 3* Blood Frenzy 5* Shadow Slash 1* Stealth 1* means that you can give more lvi, but only how the rest will do. Herbalist skills San 3 Spiritual bolt 2 harden 10* Spiritual fire 10* Vigor 8 storm boost 10 clā © rigo Divine grace 2 True True Look 2 Tornado Giat Histitalist offensive or defensive. We place them in their place for accessories (click Coral 2 times and jump to their place) the corals have a certain amount of energy, the higher the LVL, more energy can be. It is a ostile at the party, while the champion collects Voyager Mobyager kills them quickly with a strong attack. I saw people with a Build/P building and in the DMC there is no such large difference, and in the reflex definition. STR/MOVE SEGON Build less SPR, that is, less skill and more deff. By evangelion ----- Huge HP tank tank and defense is characterized by huge. SPR/WITH ATTACK MOST SMALL AND MOST DEFF. In my opinion, the building is because we are not struggling closely. Str/with, in my opinion, the best building less SPR, that is, less use of a skill and more deff. When Korala's energy falls to 0, we have to get coral. Build constructions for only polished characters and the treaty full of complete period, thanks to which we can use skills and treat and polish. ** Skill for the ship *** Develop according to your liking **** It can develop or not level the exposure in monsters by 8 lvi more high, the Exp is flying quickly. It is probably a ostile in each part to protect the rest of the team and get mobility. ** Skill for the ship *** You develop according to your liking **** You can develop or not to level obviously expose in marémós monsters, using this good sword of the NPC coral seller - Lamon (2061, 2543 - they rose), or we can look for monsters that can. Moim in your opinion, the best construction skills of the herbalist spiritual bolt 10*Vigor 8*Heal 3 hardening 10 **** Spiritual fire 10 **** Seal Master Divine Grace 2*Truth wishes to develop à € Better) Speaking Fire 4 Shadow Insignia 3 ** Abyss look 1 *** Seal of greater skill 1*lvl, we develop along with the growth of our LVL ** means that it can give more lvi, but only if the rest does ****, choose one of these two skills at the beginning (you may not develop these skills) leveling at first to be slowly, but with each lvi it is increasingly easily. Maxuj in this Blood Frenesâ Dual Sword Mastery 10 Illusion Slash 10 Shadow Slash 10 Holteza Holteza Level Expii is pleasant, but the fact that it can fall rapidly and, therefore, if it is expressed, try to obtain a good layer/class, which has a good deff fan. The weapon does not raise the attack, so the only way to raise the attack is to give all points in SPR. Str/probably every time you have been completely composed, we have less def and more than that DMG. This figure is used by dag Coral) current 2 Concha Amor 5 Tornado 5 (Wind Coral) Voyager Alga Entanglement 10 Lightning Curtain 10* (Coral Thunder) Conch Ray 10 (Coral Strike) Tail Wind 10/ Whirlpool 10 Fog 1 *** (Wind coral)** It means you can give more LVL, but only when you do the rest. By giving all the points in SPR, we will have more attack, spidgenery regeneration of SP and probably a regeneration of more rose -and -way skills. I do not recommend this construction, the number of with and STR depends on us if we see that we fall as flies, we give a little in the PP AGI/with AGI that we give at the speed 210 (+âtems) and beaten with is and is attack concentration Normal LV2 Sword Master LV3 LV3 Break Armor LV4 Tiger Roar LV5 GreatSword Masterly 5* Strengthen 3 mighty strike 2 Howl 1* Bull Bull 5* Primal Rage 1 ** It means that you can give you a bigger lvi, but only when you have you Do the rest. Our ship is more rough, which gives us professionals while neva from the rescue to the port and back. So there is a storm with lightning and we can apply thunder coralis in a message instead of [an eligric storm] can also be [a tornadoes], that is to say a secondary character for others in battle. The technique is to launch a very misic and attack. the port and we follow 2500,2850 (included (including We put the corals of thunder) Thunder Corals is caught by a ship in the storm. Str/with less SPR, that is, less skill, dmg more small and more deff. So it is like using these chicks. Monsters of which the Thunder Corals LV1 - Floating Algae (LV26) 1572, 1200 LV1 - Jelly de Mar Blanco Cap Jelly (LV29) 384, 822 LV2 - Ocean Water Dancer (LV33) 1910, 3604 LV2 - Jelly de Mar Venenos (LV35) 1350 (LV35) 1350 (LV35) 1350 (LV35) 1350, 1980 LV3 - Raven Calamar (LV43) 3132, 998 LV3 - Wild Skeleton Fish (LV45) 3132, 1292 LV4 - Variety Mermaid (LV50) 3692, 322 LV5 - VAMPIRIC POLLIWOG (LV55555555555555555555555555555555) 370, 2317 LV5 - Topaz Dolphin (LV57) 2631, 2048 CORALES OF FOG LV1 - ALLERA ICKY (LV27) 3930, 3150 LV1 - Man eating it LV33) 1478, 550 LV2 - Berserk Sea Jelly (LV36) 1310, 3604 LV3, 3604 LV3, 3604 LV3 - Midnight Water Dancer (LV44) 3211, 1731 LV3 - Thunder Sea Jelly (LV46) 3746, 1292 LV4 - Jack The Pirate The Pirate Support Support Support Support Support SHIP (LV49) 2210, 3769 LV4 - SIRENA SHADOW (LV51) 3211, 2314 LV5 JELLA DE MAR (LV56) 441, 2957 LV5 - JELLA DE MAR TORNAD SLGGIS H Squid (LV32) 1498, 1498, 2528 LV2 - Evil Wa Ter Dance (LV48) 2550, 400 LV4 - Jack the Pirate **SSSION (LV50) 1950, 3515 LV5 - Sakura 13 War ship (LV55) 1950, 1286 LV5 - Silk Shark (LV56) 3149, 3836 â... Kore boat. Thus, it is like the excellent two constructions similar to the complete sword is probably the best, in my opinion, the best construction, because thanks to we can have an Exic in solo and at the party. Party.
